

extend for itself and its subgrantees the period of availability of FY 2019 funds for programs included in the State's consolidated State plan to allow additional time to obligate those funds.

As the end of the current school year approaches and districts and schools continue to plan for the 2021–2022 school year, knowing whether their SEA is granted the invited waivers is essential to informing their planning because it provides more certainty about the availability of Federal funds for ESEA programs. Providing a streamlined process for SEA waiver requests will speed the process for both the SEA and the Department and help ensure State and local staff are able to maintain focus on the pressing needs of students. Any additional delay will have a negative impact on schools and students. In order to reduce the burden on States, the Department has created an optional template for States to collect the information required under ESEA section 8401 to request waivers of certain fiscal requirements. The optional template requests only information that is required under ESEA section 8401. The Department obtained OMB approval through emergency processing, and is now offering the public an opportunity to comment on this information collection.

Dated: July 7, 2021.

Kate Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer.
